

```
1 students = [(1, 99), (2, 60), (3, 55)]
2 matchFirst key (k, v) = k == key
3 filterById = filter (matchFirst '1') students
4
5 scores = [99, 60, "55"]
```

The definition of **filterById** is incompatible with other functions in this file.

Possible Causes (6)
